

The closing of Merrill C. Meigs Field in Chicago, IL was illegal under federal law and amounts to criminal trespass, destruction of property, and violation of a Federal mandate. Mayor Daley should not be allowed to instigate these actions simply because of his political position and should be arrested and charged immediately! Allowing him to destroy property and violate laws that would cause ordinary citizens to be incarcerated sets a horrific precedent, akin to communism! Therefore, the City of Chicago and Mayor Daley should be required to pay fines and the costs of repair to re-open Meigs Field without delay!! To deactivate Meigs airspace would embolden Mayor Daley and others like him (dictators and dictator want-to-be's) to do as they please for their own benefit without regard to laws and sanctions as well as provide little hope that the airport/airspace would ever re-open. Keep the Meigs Class D airspace open and active. Give G.A. a chance to fight this injustice in order to preserve this valuable asset!
